OREGON WEATHER

Tonight and Saturday fair south and east portions, occa- + + sional rain northwest portion; + + colder tonight eastern portion; + + southwesterly winds.

There are none but wish Mr. Ford godspeed on his pilgrimage to the warring nations of Europe. Yet little hope springs in the hearts of the people for the success of his plan. The time does not seem ripe for overtures by a neutral people. No doubt Germany would be glad to see peace, when her people could again give their energies and their thoughts to other directions than that of killing. So would England, and France, and Austria, and Russia, and all the \$1,691,748,013 worth of goods, or others whose sons are shedding their blood in the causeless war. But Germany can not, after her sacrifice of the right side of the American ledger. men and of money, accept a peace that has a tinge of humiliation in it. Neither can England, or France, or Austria, or Russia. It does not seem likely, either, that any of the nations mentioned, or their allies, could now lay down their arms and leave the issue of the battlefield a debatable one. Before peace will appear near some of the combatants must feel that they have reached the end of the rope. None yet gives the idea of exhaustion, and there is no deadlock that would warrant the calling of a drawn battle. Evidently the war must go on till some of the nations are forced to retire through loss of blood or of credit. And loss of credit

will stop it sooner than loss of blood. THE BEET IN IDAHO.

The current issue of the Rupert Democrat, published at Rupert, Idaho, contains a picture of a long line of four-horse teams hauling sugar beets to the dump for shipment to the sugar factory. With the picture is the following note of explanation:

"A visit to the beet dump at Rupert just now is worth while. Almost any time of the day there may be seen from twenty to fifty big four-horse wagons waiting their turn to pass the scales and climb the steep ascent to dump and load the big railroad cars which will shortly take the products of the beet fields to the factory, whence in a few weeks it will emerge in the shape of fine white refined sugar.

"The sugar industry in this section of Idaho is giving many a farmer on the Minidoka project a competency. Here is a staple market for every pound of sugar beets the farmers can raise, with a known price and the cash ready. The beets are grown on the project, refined on the project and the project furnishes every one of the two hundred or more men used at the factory in the business.

"Tributary to the factory there is in the neighborhood of 8,300 acres devoted to the raising of beets Twenty-two hundred of these acres are in Minidoka county and the balance in Cassia county.

"Twelve thousand tons of beets pass over the Rupert dump, worth sixty thousand dollars to the Rupert farmers. On the whole Minidoka project the farmers will get some hundred and twenty-five thousand dollars in cash within the next thirty

Nor is this remarkable prosperity record evanescent, in the opinion of Secretary of Commerce Redfield. He plete cure often follows rapidly. scouted the possibility of a bad slump in the figures after the war, FORD AND THE DOVE OF PEACE, due to the absence of heavy munitions exports, which for months have swollen this country's export figures.

> mediate causes and effects and into his arm, which was amputated sevthe future," he said. "Foreign nations after the war will come to us fingers. The severed arm pained him for machinery, steel, railroad stock until it was re-arranged in its restand other supplies."

Naturally, he pointed out, these demands will mean a continuance of the nation's remarkable export trade of the past year. The bureau of foreign and domestic commerce announced that for the year ended with October, the United States imported nearly \$200,000,000 worth less than in the preceding year. It is an unusual thing for a druggist to sell medicine under a guarantee to refund the money if it does not cure. Yet this is the way C. H. Demaray, the popular druggist, is selling Mi-o-na, the standard dyspep-

seining Mi-o-na, the standard dyspersia remedy.

Never before has he had so large a number of customers tell him that a medicine has been successful as with Mi-o-na. THE public is hereby warned that this great shoe sale closes tomorrow, SATURDAY, at 10 p. m. The signs will be taken down and the greatest shoe sale ever held in Josephine county will be a thing of the past.

The Most Astonishing Thing

about this great shoe sale is that where the people of Josephine County have responded to the call of these immense reductions there is one most important department which for some reason has been neglected. You have bought shoes for Mother, Father, and Sister, but apparently have forgotten Brother, and because Bartlett knows how important a factor Brother's shoe bill is in the average family he has given the Brother shoe the attention it deserves. The result is a large stock of the best boys' shoes made in America. The stock includes shoes for the roughest wear as well as for dress occasions, and to give the boys a chance Bartlett has ordered the price on boys' shoes cut to the last notch for this final wind-up Saturday. These shoes are made by the Holland Shoe Company, all Goodyear welts, and the best boy's shoe made in America.
